Professional Summary

Detail-oriented and results-driven DevOps Engineer with 4+ years of experience managing hybrid infrastructure, cloud platforms (AWS, Azure), virtualization, CI/CD pipelines, and containerized deployments. Proficient in automating environments, optimizing server performance, and deploying scalable, secure infrastructure. Adept with both Windows and Linux servers and well-versed in ISO 27001 security compliance.

Key Skills

- Cloud Platforms: AWS (EC2, RDS, S3, SQS, Route53, VPC, KMS, SNS, EFS, Auto-Scaling), Microsoft Azure (VMs, AAD, Intune)

- DevOps & CI/CD: GitLab with Jenkins, GitHub Actions, GitLab CI/CD

- Server Management: Ubuntu, CentOS, Bitnami, AlmaLinux, Contabo – server optimization, setup, and site migrations

- Containerization: Dockerized deployments for Laravel, Magento, WordPress, and custom PHP apps

- Web Servers & DBs: Nginx, Apache2, MySQL, MariaDB, PostgreSQL

- Tools & Services: Cloudflare, Heroku, Plesk, CPanel, Hostinger, Nexcess

- Scripting & Automation: Bash, PowerShell

- Virtualization: VMware ESXi, Citrix XenCenter

- Security & Backup: Veeam, Microsoft Intune, ISO 27001, Fortinet

- Networking: VLANs, Routing, Switching (Cisco, Ubiquiti)

Certifications

- AWS Certified Cloud Practitioner (in progress/training)

- Microsoft Azure Fundamentals (AZ-900) – Training

- Cisco Certified Network Associate (CCNA)

- Microsoft Certified Solutions Associate (MCSA)

- Fortinet Network Security Associate (NSE 1 & 2)

Education

MS in Computer Networking – Sir Syed University (2019–2021)

BE in Computer Engineering – Sir Syed University (2015–2018)

Professional Experience

- Goodcore Software Pvt Ltd — Network & DevOps Engineer

Aug 2021 – Present

- Deployed and managed cloud infrastructure on AWS (EC2, S3, IAM, VPC)

- Built and configured Microsoft Azure Active Directory, InTune, and Office 365 environments

- Implemented ISO 27001-compliant security and compliance policies

- Virtualized servers using VMware ESXi and Citrix XenCenter

- Managed AD, GPO, DHCP, DNS on Windows Server 2019

- Automated server deployments and software patching via WSUS and custom scripts

- Set up and maintained Unifi Wi-Fi, UDM, and VLAN routing

- Developed backup strategies using Veeam Backup

- Supported users remotely and handled all IT support escalations

- Maintained and monitored on-premise data center and infrastructure

- Bahria Town Karachi — IT Support Engineer

Dec 2018 – Aug 2020

- Managed and supported Cisco switches and routers

- Troubleshot LAN/WAN issues and configured IP telephony and biometric systems

- Provided 24/7 Level 2 support for servers, printers, and network

- Handled structured cabling, CCTV setup, and data center server racks

- Maintained network performance and applied hardware/software upgrades

- Shispare Pvt Ltd — System Engineer

Jul 2018 – Dec 2018

- Provided desktop support to over 1500 users

- Managed Windows Server 2012 R2 roles, users, and backups

- Supported VoIP and user account management

- Maintained inventory of all hardware, software, and IP assets

- Administered HP ProLiant G7 and G8 servers and performed remote troubleshooting

Project Highlight

Ubiquiti Wireless Network for Goodcore Software

• Designed and deployed Wi-Fi infrastructure with ISP load balancing
• Mapped Wi-Fi heat plans per floor layout
• Integrated Microsoft Azure AD, Intune, and Office 365 for ISO 27001 compliance
• Configured NAS (RAID 1) for high-availability storage solutions
